

## **FEEDBACK AND APOLOGIES**

Does anyone get any response to submitting feedback through the site? I used to I remember, even getting emails from Rui, but not any more. It is probably a nuisance factor for him as he must be extremely busy, but why have it if it's not effective? In my ignorance with technical things, I have recently requested assistance as per the last paragraph below.

Anyway, I have recently (like the last couple of days) started using FTP to load my files into this wonderful website, which I have used for several years, both as a writer and reader. However in some cases I have used the wrong text format so one or two of my tales are either garbled or in text strung out over miles of page widths. I do apologise as I know how frustrating it is when wanting a good read and opening a file you can't decipher.

I am transmitting the errant ones again in PDF format which seems to be accepted.

I am also trying to establish if it's possible to delete the wrong ones so as not to confuse people and I also want to know how to edit my profile, for instance update it and add my email address, as I can't find a way of doing it.

If any of you nice folk know, please advise and email me : - [cfagpres@gmail.com](mailto:cfagpres@gmail.com)

Thanks and again – sincere apologies
