Summary: A preteen boy gets caught jerking-off by his little sister. When he explains what he was doing to her, she wants him to make a baby in her...

FRIDAY OF FIRSTS

One Friday, a month or so after my eleventh birthday, I came home from school as usual. Following my usual after-school routine: I went to my bedroom and pulled my shorts and underpants down, sat on the edge of my bed, and closed my eyes as I took my four-inch long dick in my right hand and began moving my fist up and down its length...all the while day-dreaming about how my best friend, Liz looked naked...

While I hadn't actually seen her naked, I didn't have to do much imagining, to know what she looked like... About a week after Nick had taught me how to jerk off Liz's family's washing machine had broken. Once she ran out of clean clothes that fit her, she had to wear ones from the previous year: they were most definitely too small and looked almost like a second skin...

Anyway, there I was: sitting on the edge of my bed with my shorts and underpants around my ankles stroking my dick as fast as I could, trying to get the really good feelings that came with my dry orgasms. In my mind Liz was right there: standing in front of me completely naked. With the mental image of her began rubbing her nine-year-old pussy, I moaned "Oh Liz, Liz, my sweet Liz!" Suddenly my butt-cheeks tightened...my dick started throbbing in my hand... I knew from experience that signaled the beginning of my "dry-orgasm."

"Aaaaauuggghhh! Oh! Oh! Oh!" I half moaned / half yelled: this was bar far the best dry-orgasm I'd ever had. Opening my eyes, I looked down to see a glob of white cream shot out of the little hole on the end of my dick. Then a split second later more of it shot out, then more... HOLY SHIT: I was shooting cum!!!

I basked in the glory of the knowledge that I had just shot cum for the very first time in my life: I thought I was in heaven...that is until my four-year-old little sister Ali ran in the room yelling, "Sam, Sam are you ok? Are you hurt?" Needless to say, she scared the shit out of me! After the shock wore off, I began to worry about her telling Mom on me.

Talk about bad luck: the first time I shot cum and I got caught by my little sister... "Yes Ali I'm ok, and I'm not hurt. I was just playing a game that some of my friends showed me. It's really fun and it feels real good. Please don't tell Mom on me!"

Then Ali spoke. "I know that game, sometimes I play with my pee-pee too. It feels really, really good when I rub it with my finger. Don't worry, I won't tell Mommy."

"Thank you Ali, this will be our little secret and nobody needs to know but us, okay?" I glanced at the clock...3:27. "Shouldn't you still be at Tiny Tykes?" I asked, wondering why Ali was home so early.

"Mrs. Barnes (the lady that runs the place) had to leave town. Mom told her she could drop me off earlier..." Ali explained. GOD: why can't Mom ever tell me about things like this. "Why were you saying Liz's name and what was that white stuff that came out your stiffie?" asked Ali.

"I was pretending that Liz was standing here naked and was asking me to put my stiffie in her pussy. The white stuff is what my friends call cum." I said.

"How come I don't make cum?" asked Ali.

"You do: girls cum inside their pussies, it doesn't shoot out like boys' does. When a boy's cum and a girl's cum mix inside the girl's pussy it makes a baby." I responded as I attempted to piece together the various things Nick had told me about sex over the past few months.

"How does the white stuff get in a girls pee-pee, err pussy?" Ali asked, eyeing the glistening globs of spunk on my thighs.

"A boy has to put his dick inside a girl's pussy and then shoot his cum," I answered.

"Do you want to put your stiffie, I mean dick in my pussy and make a baby with me?" asked Ali. HOLY SHIT: my four-year-old little sister wanted to have my baby!

"You're too young." I replied, without thinking about how she would likely respond.

Suddenly Ali was on the verge of a tantrum, "I'm not too young." she adamantly declared, stamping her foot on the floor.

Knowing I had to calm her down quick, I began explaining, "A girl can't make a baby until she's about thirteen..." that sounded right.

"Oh," she interrupted me. There was a moment of silence. Just as I figured my little sister had returned to her usual happy self, she spoke up, "Well, we could pretend to make a baby...it'll be fun!"

Despite the fact that I wanted more than anything to put my dick in a girl's pussy, my brain knew there was no way my eleven-year-old four-inch long dick was going to fit in my little sister's four-year-old pussy. "I think my dick's too big to fit in your pussy," I replied, hoping she'd see reason.

Ali looked at my crotch for a few seconds before declaring, "Your dick will fit inside my pussy." She paused for another second before begging, "Can we try? Please, please!"

"I don't know..." I paused for a second thinking about it.

"Come on: it'll be fun..." Ali baited me.

"I'm sure it would be fun, but if Mom finds out we'll be in big trouble!" I declared.

"I won't tell Mommy, so she won't find out. Please! Please!" whined Ali.

By this point I had been hearing my four-year-old little sister suggest that I could put my dick in her little pussy for a full two minutes. Repeatedly hearing Ali's suggestion had my dick standing up and hard as a rock. I was all but certain my dick wouldn't fit in her pussy, but... "Okay. How 'bout this Ali: I'll try to put my dick in your pussy. If it starts to hurt tell me and I'll stop. If it won't go in, I'll rub it in your slit and try to shoot my cum into your pussy..."

Ali nodded "yes." Okay: how to do this; I thought for a second, "sit on the edge of the bed and spread your legs." I instructed.

"Don't you want me to take my dress and panties off first?" asked Ali.

I glanced at the clock again, 3:32. "We better not: Mom'll get home in a few minutes, if she catches us naked we'll be in big trouble." I paused for a second before continuing, "You can lift up the bottom of your dress and pull your panties to the side while I rub my dick on your pussy. Maybe when we have more time we can take our clothes off." I answered.

Ali sat on the bed, lifted the bottom of her dress above her waist, and pulled the crotch of her pastel-pink cotton little-girl panties to the side. Her pussy was...well, so tiny and bald; its little mound was like half of a quite small peach with a little crack through the middle.

I wasn't sure what to do, but her little pussy was drawing my dick like a magnet. Moving between her slim-ish four-year-old legs, I grabbed my four-inch dick, and lifted it up slightly, before moving it down; effectively spanking her bald little mound with the head of my eleven-year-old dick. When my dick made contact with her neither-regions I KNEW there was nothing in the world that could pull me away before I had another orgasm. I rubbed the tip of my dick up and down her tiny crack several times. Slowly, her pussy lips spread open: allowing the head of my dick slipped into her tiny, bald slit.

When my dick head felt the mouth of her warm moist pussy: WOW, it took my breath away. I had never felt anything so amazingly incredible in my life. Ali moaned at the same time I did.

"Oh Tim! That feels so good...keep rubbing your dick on my pussy: it feels lots better than my finger." I continued rubbing my dick up and down through her tiny bald slit for two, maybe three, minutes; all the while my eyes were glued to the spot where my dick had her bald little mound spread open.

Each time when I got to the top of her slit I would hit this little bump, and Ali would shiver and moan. "That must be what Nick called a 'clit'." I thought.

Suddenly my butt-cheeks tightened. An instant later, when I felt my balls draw up, I quickly moved the head of my dick to the mouth of my little sister's tiny four-year-old hole. Pushing forward; I hoped, would make a tight enough seal between the head of my dick and Ali's little hole, to make sure when I squirted my cum would actually go into her.

"Oh sweet Ali: I'm going to cum...I'm going to shoot your pussy full of babies!" I babbled as I felt the cum begin surging up the little tube on the underside of my dick. As the first spurt of my eleven-year-old cum blasted out of the little hole on the end of my dick, I couldn't help but groan. Like clockwork every-other second another I shot rope after rope of my hot, thick, creamy-white, (now) sperm-laden eleven-year-old cum into my little sister's four-year-old pussy.

My orgasm began to die-down after the fifth spurt; but having the head of my dick against Ali's immature little hole just felt so GOOD... Without really thinking about it, I began making tiny hunches against her pussy, soon Ali began hunching back. She was breathing hard and producing a fairly high-pitched, yet guttural moaning-sound: I knew it must be feeling real good for her also.

Suddenly, without warning the head of my dick popped inside Ali's pussy. I froze: fearing I had hurt her; while, at the same time, wondering how the hell I had managed to get the head of my eleven-year-old dick into her tiny four-year-old pussy.

It wasn't until Ali spoke. "Oh Tim, that felt SO good: do that some more...Please. Please!" that I realized the cum I had just shot must have made her little pussy extra slippery... I began pulling in and out, fucking her tiny hole with just the head of my dick.

After about two minutes, Ali started pushing back...hard. Ten strokes later, my four-inch dick was buried up to my balls in her miniature four-year-old hole. We fucked for several minutes: my hairless nuts slapping against the bottom of her tiny, bald mound. Suddenly Ali began shaking all over and begging me to go faster: she was having her first-ever orgasm. That put me over the edge, again.

"Oooh! Myyyy! God! I'm gonna...ooh!" I attempted to tell my little sister, as my balls drew-up under my dick for a third time in less than twenty minutes. An instant later cum was once again surging up the little tube on the underside of my dick. I shoved all four-inches of my eleven-year-old dick into Ali's four-year-old pussy, before letting loose a torrent of my creamy cum. I held my body tightly to my little sister as my dick continued to spew cum deep inside her tight little hole...

We were just coming down when we heard a car door slam. "Mom's home! Quick Ali, go to the bathroom and clean up!"

"Can we do this again?" She asked as she ran out of my bedroom.

"Sure!" I answered as I pulled my shorts and underpants up before heading downstairs to greet our Mom.

“Hey Mom.”

“How was school?” Mom asked.

“Okay,” I replied, before mentioning, “Ali got home half-an hour early...”

Mom cringed, “Oh geez: I forgot to tell you Mrs. Barnes had to leave town for a funeral; I told her you’d be home, so she could drop Ali off earlier...what happened?”

“Nothing,” I lied, “other than her walking startling the hell out of me...”

A look of relief washed over Mom, “Don’t swear...”

Other than the fact that it started raining around dinner time, the evening was quite uneventful: dinner with Mom, Dad, and Ali; did my homework (it was raining outside after-all); some TV; brushed my teeth; went to my bedroom...

For the second time that day Ali succeeded in startling the hell out of me. I nearly jumped out of my skin when her little head appear on the far side of my bed: clearly she had sitting on the floor over there waiting for me to ‘go to bed.’ Breaking the silence she asked, “Can we pretend to make a baby again?”

I couldn’t believe it: she had managed to catch me with my pants around my ankles twice in the same day. Although, this time I had a legitimate excuse: I was changing into my pj’s... A moment passed in silence as I thought, “...I was gonna jerk off, so...but if Mom and Dad hear us...if I say no she might...” After weighing the pro’s and con’s, I decided to go for it; replying, “Uhm...yeah...sure, but we gotta be really quiet,”

“Should I take off my pajamas?” Ali asked.

I began shaking my head, “Not with Mom and Dad in the house...”

“Okay...” Ali replied in a disappointed tone.

Wanting to move things along quickly in case our parents decided to ‘check in on us,’ I suggested, “Why don’t you pull your pajama bottoms and your panties down around your ankles before you hop-up on the bed...I’ll come around to you.” in a near whisper.

In the dim light (I never bother to turn on the lights when I get changed for bed) watched my four-year-old little-sister bend over as she lowered her pj bottoms and panties, while I stepped out of my underpants. By the time she sat her bare bottom on the edge of my bed I was standing next to her: naked from the waist down.

For the second time in a handful of hours Ali spread her bare little legs and I stepped between them. Reaching down, I found my eleven-year-old dick was already standing up straight and hard as a rock. As I had done a few hours earlier, I pressed my dick against her neither-regions, before I proceeded to rub it up and down her tiny crack several times. Once again, her little four-year-old pussy lips spread open: allowing the head of my dick slipped in...between them. I continued rubbing my dick up and down through her tiny bald slit for a few minutes.

This time my dick knew what was happening. I felt something ooze out of the little hole on the end of my dick. Moving the tip of my dick up and down through Ali's little slit spread, the oil-like substance, through her little slit: making it slippery...very slippery. It felt great, so I continued sliding my dick up and down through Ali's little-girl slit.

All of a sudden just as the tip of my dick was pressed right up against the entrance to Ali's pussy, I lost my balance. In the split second I was off-balance my hips moved forward: driving the head of my eleven-year-old dick into her tight little hole. "Oooo..." she exhaled in a whisper.

Now that the head of my dick had made it into her hole I knew I could easily put the rest in. "I'm gonna put my dick in your pussy now," I whispered to my little sister.

"Uh-huh..." she whispered back. I began pushing my hips forward: driving my rigid eleven-year-old dick into my little sister's four-year-old pussy. Once about half of my four inch long dick was insides her, Ali continued whispering in my ear, "shoot lots of cum in my pussy so I can make a baby..."

HOLY SHIT! Ali's comment was going to make me cum sooner rather than later. For some strange reason I found the idea of knocking up my little sister to be a turn-on... Wanting to have my entire dick buried in her tight little pre-pubescent pussy before I shot my load in her, I gritted my teeth and pushed my hips forward with renewed vigor. Little more than a second later I felt my hairless balls slap against her little four-year-old butt.

For some strange reason I found the idea of knocking up my little sister to be a turn-on. Considering the number of times Ali had all but said she wanted to have my baby I decided to have a little fun with her. "Do you want me to shoot my cum in your pussy so we can make a baby now?" I asked in a whisper.

"Ouh...yeah," Ali groaned in a hushed tone.

I took a breath, fought the urge to cum of an instant before continuing, "Do you want to have your big brother's baby?"

"Yea..." she groaned a bit louder than the last time. In the dim light in my bedroom I watched Ali's eyes roll-back in her head, as her pussy suddenly become hotter and wetter, and her body began shaking.

Her orgasm pushed me over the edge. My butt-cheeks tightened, my balls drew-up under my dick, and cum began surging up the little tube on the underside of my dick. An instant later the first spurt of my hot, thick, creamy-white, sperm-laden eleven-year-old cum spewed out of the little hole on the end of my dick deep inside my little sister's four-year-old pussy. I did my best to keep my dick all the way inside my little sister as my dick continued to spew cum deep into her tight little hole...

After five nice big spurts my orgasm died down around the same time as Ali's. My dick was beginning to slowly soften as I withdrew it from my little sister's four-year-old pussy. With a quiet yet erotic slurping sound the head of my deflating dick popped free of the outer-ring of her per-pubescent hole.

As I stepped back around my bed and began putting my pj bottoms on, Ali hopped off my bed bent over and pulled up her pj bottoms and panties. "You better get to bed before Mom and Dad come to check on us," I said.

Ali nodded, then as she walked past me she whispered, "Thanks for making a baby with me..." before leaving my room, and heading down the hall to her own bedroom.

"Holy Shit!" I thought as I laid down in bed, before drifting off to sleep.
